

## Vive le metro

Hong Kong's up-and-coming district Sai Ying Pun got another boost with the opening of Metropolitain, a casual French bistro.

The restaurant is conceived around the emblematic Parisian metro. The facade is designed like an original entrance and the materials and the decoration was selected to create the ambiance. Subtle design touches reflect the spirit of bringing France to Asia.

The modern and inviting venue, which benefits from a four-meter clearance, features 40 seats including 20 in a spacious terrace. A huge bar, long sofa and open kitchen contribute to the conviviality.
